

ALLOY WHEEL COLLECTION

V0.1

"It is well known that nothing improves the look of a car more than a new set off alloy wheels and when coupled with the best quality and correct application it can also improve comfort and performance"

Inside this catalogue you will find a hand selected range of alloy wheels picked and produced by professionals with over 40 years experience, the product within this catalogue will have something to suit all tastes, budgets and covers most of the modern cars available in Europe today.

So whether you own a Town car, Hot hatch, Van, Family saloon or SUV you will find something inside to suit.

FOX
WHEELS

FOX wheels

One of Europe's best selling and most innovative brand of alloy wheels since 1995, an extremely smart, sporty and excellent quality range of wheels to suit the majority of cars on the road today.

MAX
sensor

Need replacement TPMS valves?

UNIVERSAL TPMS SENSORS

By November 2014, EVERY new car will come with factory fitted TPMS systems.

Universal TPMS sensors are replacement tyre pressure sensors that can be programmed to work with any vehicle equipped with TPMS technology. Working with the cars on-board computer the replacement valves provide tyre pressure readings and warnings.
